- **Technology, Leadership, and Innovation**

FREE is GREAT!

If you attend the Virtual Grad Fair, you can apply to a Purdue online Master's program for FREE!

To qualify, you: 1) must be logged in to the virtual event for at least 30 continuous minutes; and 2) apply to one of the 22 fully online Master's programs (see list of eligible programs above).

To request a waiver of the regular application fee, please follow these instructions:

- **Begin your application following the instructions at: <https://www.purdue.edu/gradschool/admissions/how-to-apply>**
- **During the online application process, on the 'Additional Information' page there is a question that asks if you are a member of a recruitment program. In the drop-down box select 'Virtual Fair & Symposium'.**
- **This will trigger an email to the Graduate Admissions office so that we may waive the application fee**
- **Within two weeks you will receive a return email letting you know that the application fee has been waived.**
- **In the meantime, you may complete and submit your application.**

Please remember the application fee is non-refundable. If you pay the application fee prior to receiving the fee waiver, your fee cannot be refunded. Your participation in the Virtual Fair & Symposium allows you to receive one application fee waiver. Please email gradinfo@purdue.edu if you have questions.

Good luck with the application process. We hope to see you at Purdue!
