Online Courses Funded for Development

This spring Digital Education and IT Teaching and Learning Technologies provided joint support for the development of several courses: BCHM 307, Biochemistry, Prof. Orla Hart; HDFS 311, Child Development, Prof. Ting Lu; SLHS 499, Introduction to Clinical Practice in Communication Disorders, Prof. Barbara Cicholski; SPAN 330, Film in Spain and Hispanic America, Prof. Patricia Hart; ENTR 460, Entrepreneurship and Innovation Team; HIST 372, History of the American West, Prof. Dawn Marsh. All of these new courses are being offered this summer and during the upcoming academic year!

Digital Course Information Pages Offer a Deeper Dive

This spring DE teamed with Summer Session to develop a flexible and engaging format for online course description pages that provide a more in-depth understanding of a course than the traditional catalog description. The new course pages can include course objectives, textbook information, photos, the syllabus, details about course delivery, and a video introduction by the instructor. You can see sample course description pages [here](#) and [here](#). This pilot was so successful that work is underway to scale this up so that eventually it will be an option for all courses.

Teaching Online Course Available for Graduate Students

EDCI 591: Online Teaching and Learning is available to Purdue graduate students for the first time this fall. This three-credit course is designed to prepare students to teach online effectively. This is an advanced course (not a basic introduction to online tools!). It will be taught in a blended format with asynchronous online sessions and face-to-face sessions. The course may be used toward meeting the requirements for the Purdue Teaching Academy's Graduate Teacher Certificate. For more information about the course, visit its course information page [here](#).

Upcoming Purdue System Summit to Explore Cooperative DE

The Provost's Office is sponsoring Better Together, a day-long Purdue System-wide Summit on September 23 at the IPFW campus. Among the many topics to be explored is system-wide cooperation on digital education.

New Digital Education Website

A new streamlined Digital Education website will launch on July 6. It will bring together all the digital education resources for faculty member and students. The URL will be www.digitaleducation.purdue.edu.

You are receiving this monthly updated because of your association with Digital Education activities at Purdue. If you would prefer not to receive it, please click [here](#).
